

Bug Night...

of the
Living Dead!

FILMED IN
COMPOUND
EYE VISION

*Vomit bags
will be at **EVERY**
theatre seat!*

*Can **NOTHING** stop
these “vial” creatures?*

Upper Merrimack River
Local Advisory Committee
PO Box 3019
Penacook NH 03303

You can be a B-movie star
at the Twenty-second Annual
BUG NIGHTS!

Since 1995, volunteers including anglers, students, teachers, paddlers, and many others interested in the health of the Upper Merrimack River and general river ecology began learning about these fascinating creatures and what they tell us about river conditions. Your work as a citizen scientist helps determine the health of the Upper Merrimack watershed.

Training is free, fun, and a great way to spend quality time with family and friends as well as an opportunity to make new acquaintances.

Lights, camera, (bugs, denatured alcohol), and... action!

.....

Upper Merrimack Monitoring Program Bug Nights 2017 sessions are held on **most** Wednesdays from late January through mid-May at St. Paul's School.

This year, the doors open at 6:00 PM and we will exit the laboratory promptly at 9:00 PM.

An instructional training and refresher class will be conducted during the first session on January 25, 2017.

Refresher and additional training will be provided at each session.

All equipment and alcohol (denatured preserving alcohol only) are provided—just bring yourself and a friend.

Be sure to check www.MerrimackRiver.org to be sure that we are in session that evening.

.....

Directions to St. Paul's School from Interstate 93: Take I-89 north from Concord to exit 2 to Clinton Street. At the end of the ramp turn right onto Clinton Street. Follow signs and take left onto Langley Parkway. Continue to end to intersection of Pleasant Street (across from Concord Hospital). Turn left onto Pleasant Street. After about half a mile, turn left onto Dumbarton Road at the St. Paul's School sign. Take your first left after the barn (as soon as you enter the grounds) on the left, and use the large lot across from the Lindsay Center for Mathematics and Science, which is across the road. Enter the building at the center door off the small parking lot. The Ecology Lab is Room 123 on the right.

STORM AND OTHER CANCELLATIONS WILL BE POSTED at MerrimackRiver.org.

Contact Michele Tremblay and Steve Landry at 603.796.2615 or UMRLAC@MerrimackRiver.org or visit MerrimackRiver.org.
