# Escape your day-to-day drudgery and live the fantasy of a playbug's life!

the Fourteenth Annual

## BUG NIGHTS

are the place to live out your insect fantasies!

Since 1995, volunteers including anglers, students, teachers, paddlers, and others interested in the health of the Upper Merrimack River and general river ecology have enjoyed learning about these fascinating creatures and what they tell us about water quality.

Your work as a citizen scientist helps determine the health of the Upper Merrimack watershed.

**Training is free, fun, and a great way to spend quality time for an evening with family and friends as well as an opportunity to make new acquaintances.**

**A fantasy life begins on Wednesday nights with your friends, family, and super sexy bugs!**

Upper Merrimack Monitoring Program Bug Nights 2010 sessions are held on Wednesdays at St. Paul's School, start at 6:00 PM, and end promptly at 9:00 PM.

An instructional training and refresher class will be conducted at the first session on February 3, 2010\*.

Refresher and additional training will be provided at each session.

All equipment and alcohol (denatured preserving) are provided—just bring yourself and a friend.
